CALFED Bay-Delta Program

Public Notice

The CALFED Bay-Delta Program is releasing a Draft Programmatic Environmental Impact Statement/Environmental Impact Report (Draft Programmatic EIS/EIR) on June 25, 1999, for state and federal agencies with regulatory and management responsibilities in the San Francisco Bay-Sacramento/San Joaquin River Bay-Delta to develop a long-term plan to restore ecosystem health and improve water management for beneficial uses of the Bay-Delta system. The CALFED Program includes a range of actions that may affect the San Francisco Bay-Sacramento/San Joaquin Bay-Delta, Suisun Marsh and Bay, Central Valley floor and Watersheds, and Central and Southern California water service areas.

Written comments are due by September 23, 1999

Public comments can also be submitted orally at one of the 15 public hearings which will be held at various locations around the state. The Draft Programmatic EIS/EIR can be found and copies requested on the CALFED web site at: <http://calfed.ca.gov>.

The document is also available in hard copy or CD-ROM. For copies of the Draft Programmatic EIS/EIR and/or information on the public hearings, please contact the CALFED Bay-Delta Program at 1-800-900-3587. Written comments on the Draft Programmatic EIS/EIR should be addressed to Rick Brietenbach, CALFED Bay-Delta Program, 1416 Ninth St., Suite 1155, Sacramento, CA 95814-5509.

Teachers deal with non-teaching employees' union

more than its share of labor problems this year.

CSEA president Eileen Robinson, an attendance clerk at Pleasant Valley High School, had declared her union at an impasse with Chico Unified June 8 after a negotiating session.

Robinson said she requested that a mediator from the state Public Employee Relations Board (PERB) meet with both sides.

"The request was filed with PERB but now that we have reached agreement the mediator will be canceled. They never actually got involved because we worked it out on our own first."

Robinson said her favorite part of the deal was winning a good pay raise for her membership. CSEA has made an additional salary hike proposal to the school board

for the fiscal year beginning July 1, 1999, she said.

Chico Unified officials have struggled this year to find a balance between budget constraints and employee pay raise demands. The district has yet to reach agreement with the union representing its 730 teachers, who have repeatedly threatened to strike.

President Dan Sours of the Chico Unified Teachers Association said Thursday he's pleased other employees have a settlement with the school district.

"The CSEA people I have talked to seem thrilled with the agreement so I am thrilled for them. I hope that with the new superintendent on duty ... (the teachers) will receive a fair settlement as well."

The new superintendent, Dr. Scott Brown, told the E-R, "I'm very happy to

see this happen. It looks like an agreement that meets the needs of all the parties."

Chico Unified's negotiating team met 17 times with CSEA's representatives, beginning in June 1998.

Assistant Superintendent Jim Sands is Chico Unified's lead negotiator with classified employees. He said the 3 percent pay raise agreed to for CSEA isn't actually any higher than the district's current 2 percent offer to teachers, because teachers earlier chose to receive a retirement benefit worth an additional percent.

"The teachers get that additional 1 percent in the form of a retirement benefit, which is a supplement to Medicare insurance. The classified union decided to instead take that extra 1 percent in the form of salary."

Chico Unified continues to meet infor-

mally with the teachers' union. The two sides are preparing reports representing their versions of the facts. These will be presented Aug. 2 to a "fact-finding" panel made up of representatives from CUSD, the union, and the Public Employee Relations Board.

The panel will consider both sides then issue a report stating its conclusions. At that time the district can implement its best offer, and the teachers can decide whether to accept or strike.

Teachers have already rented a "strike headquarters" office space on First Street.

When the two sides last bargained formally, the district's offer stood at a straight 2 percent pay raise plus adjustments worth an additional 2.5 percent increase in pay. The union was holding out for a 6 percent pay raise retroactive to July 1, 1998.

E-R map by Steve Schoonover

to qualify the area for federal insurance.

The county requires new structures to be built one foot or more above the so-called 100-year flood plain.

"This is stricter than the FEMA standard which says at or above the 100-year flood plain," said Stuart Hill, the county's manager of land development services. "We're more conservative."

The Board of Supervisors is in process of adopting an ordinance that updates levee and building regulations east of the primary floodway.

Tuesday the supervisors passed

a resolution authorizing formation of the district.

Actual formation will be subject to landowners in the district voting to approve a \$4 assessment per acre per year to insure the availability of funds for district activities.

A public meeting is to be held by the Board of Supervisors on July 27 to provide information on the assessment requirement for formation of the district.

A mailed ballot election, and a protest hearing is to be scheduled for Aug. 10 to precede a decision by the board as to whether the district is formally declared in existence.

Gunman doesn't contest charges

By Terry Vau Dell
Staff Writer

OROVILLE — A young man pleaded no contest Wednesday to charges he shot and wounded a Chico bank executive during a failed residential robbery.

Aaron Maier, 23, of Chico could receive up to 16 years in prison when he is sentenced next month.

In return for his plea, the prosecutor modified a firearms enhancement that could have added 10 more years to Maier's sentence.

Robert H. Steveson, chief executive officer of Tri Counties Bank, was wounded when the suspect fired two shotgun blasts into his Crimson Court home last July 8.

Two teens, who had been with Maier earlier that night, testified at a pretrial hearing that Maier admitted he had gone to Steveson's residence to burglarize it, though he claimed the wounding of the bank official was an accident caused by the shotgun hitting his leg and discharging through Steveson's front window.

However, sheriff's deputies pointed out that after blasting a hole through the victim's front door, Maier had fired a second shotgun blast at "shoulder height" through a plate glass window directly in line with Steveson as he

sat in his office playing a computer card game.

Steveson, whose son was an acquaintance of Maier, sustained four "minor" pellet wounds to his right side, for which he was treated at a local hospital and released, according to reports.

Deputy district attorney Michael Candela said that Wednesday's plea-bargain was "acceptable" to the Chico bank official.

Maier, who had been scheduled to stand trial next Monday in Butte County Superior Court, pleaded no contest to attempted robbery, first-degree residential burglary, felony assault and auto theft.

The latter charge related to the theft of a newspaper carrier's car in San Francisco, which Maier reportedly was driving when the Chico

crimes occurred.

In return for his plea, a second burglary count was dismissed.

The prosecutor pointed out that would have added no additional prison time because it was directly related to the attempted robbery charge.

Maier's lawyer, Ric Ortnor of Chico, said that based on the "circumstantial evidence and the statements (Maier made to police) we were left without any defense that I could see."

The defense was able to get a 20-year enhancement for firing a gun during the commission of a crime cut in half by rephrasing it to read: "personally using" a gun.

Judge Thomas Kelly ordered Maier remanded without bail pending sentencing July 21.

CALFED Bay-Delta Program

Public Notice

The CALFED Bay-Delta Program released a Draft Programmatic Environmental Impact Statement/Environmental Impact Report (Draft Programmatic EIS/EIR) on June 25, 1999, for public review and comment. The CALFED Bay-Delta Program is a cooperative effort by 15 state and federal agencies with regulatory and management responsibilities in the San Francisco Bay-Sacramento/San Joaquin River Bay-Delta to develop a long-term plan to restore ecosystem health and improve water management for beneficial uses of the Bay-Delta system. The CALFED Program includes a range of actions that may affect the San Francisco Bay-Sacramento/San Joaquin Bay-Delta, Suisun Marsh and Bay, Central Valley floor and Watersheds, and Central and Southern California water service areas.

Written comments are due by September 23, 1999.

Public comments can also be submitted orally at one of the 15 public hearings which will be held at various locations around the state. The Draft Programmatic EIS/EIR can be found and copies requested on the CALFED web site at:
<http://calfed.ca.gov>.

The document is also available in hard copy or CD-ROM. For copies of the Draft Programmatic EIS/EIR and/or information on public hearings, please contact the CALFED Bay-Delta Program at 1-800-900-3587. Written comments on the Draft Programmatic EIS/EIR should be addressed to Rick Breitenbach, CALFED Bay-Delta Program, 1416 Ninth St., Suite 1155, Sacramento, CA 95814-5509.

Oportunidad de Empleo a Personas de la Tercera Edad, Indígenas y Discapacitados

TIJUANA.- El Sistema Estatal para el Desarrollo Integral de la Familia (DIF), pondrá en funcionamiento el programa "Producción y Productividad" el cual brindará empleo a personas de la tercera edad, mujeres indígenas y discapacitados. La Directora del DIF Estatal, Silvia Esthela Varela Díaz, informó que el objetivo del proyecto será fomentar el trabajo de grupos

marginados, a fin de elevar su calidad de vida en beneficio propio y de su familia.

Indicó que a través del programa, las personas que sufren de alguna incapacidad física, así como de la tercera edad e indígenas podrán demostrarse a sí mismos y a los demás, su gran utilidad en la sociedad como personas activas e integradas al desarrollo productivo del estado.

Manifestó que el programa de producción y productividad del DIF apoyará a un promedio de 100 personas a través de 11 proyectos operativos, los cuales funcionarán a manera de talleres de diversos giros y contarán con una inversión inicial de 867 mil 742 pesos.

Agregó que en el municipio de Mexicali se pondrán en marcha dos talleres. Uno de carpintería el cual beneficiará al Centro de Bienestar y Desarrollo Social de personas con discapacidad y el segundo de costura, para personas de la tercera edad en el Centro Comunitario Josefa Ortiz de Domínguez donde además de brindarles capacitación se les hará llegar

una aportación económica para la continuidad de los trabajos de 50 mil y 100 mil pesos respectivamente.

En Tijuana se apoyarán 8 talleres productivos a personas con discapacidad y de la tercera edad donde se impartirán cursos de Costura, jardinería, tortillería y cocina y contará con una inversión de 259 mil pesos el cual beneficiará al Centro de atención Múltiple de Playas de Tijuana.

También se otorgarán recursos por 80 mil pesos al Centro de Capacitación para Invidentes de Tijuana en donde se establecerá un taller de confección de trapadores, y de igual manera se apoyará a tres grupos independientes de la tercera edad tanto de Ensenada como de esta ciudad para la creación de cursos de costura.

La Directora del DIF estatal señaló que con la implementación de este proyecto se cumple parte de los programas que el Gobierno del Estado planteó dentro de su "Plan de Prioridades", toda vez que los recursos para apoyar a estos talleres, fueron proporcionados por la Dirección de Desarrollo Social del Estado.

Programa CALFED Delta de la Bahía

Aviso al Público

El programa CALFED Delta de la Bahía lanzó el 25 de Junio de 1999, el reporte Declaración de Impacto al Medio Ambiente (Ante-proyecto Programático EIS/EIR) para revisión y comentarios del público. BC Estará Representada en el Concurso Nacional de Ciencias

64 Mejores Estudiantes de Física del País

TIJUANA.- Hija de una profesora de educación primaria, América Esmeralda Ocampo Delgado representará a Baja California en el Concurso Nacional de Ciencias que reunirá a los mejores 64 estudiantes de física del país.

Ganadora del segundo lugar a nivel estatal, la joven estudiante se confiesa "encantada por los niños" y desea dedicar su vida a la docencia "quizá por herencia y aunque también me gustaría realizar alguna inge-

niería, me inclino más por dar clases".

Acompañada por su asesor, el ingeniero Víctor Manuel Martínez García, América visitó las instalaciones de El Sol de Tijuana para hacer partícipe a la comunidad de sus sueños y aspiraciones.

"Deseo que los niños de México tengan la oportunidad de estudiar, porque sólo con estudios podremos superarnos. México merece gente preparada que lleve a la nación a ocupar los primeros lugares a nivel mundial".

El certamen nacional se celebrará los días 1 y 2 de julio en la Ciudad de México y hasta allá viajará América en compañía de su asesor, "porque debo estudiar más de 10 horas diarias para no fallar".

Consciente de que la física es una de las materias de "mayor dificultad", América asegura que en su caso "es algo que me sale de manera natural, entiendo la física sin mayor problema".

El concurso nacional constará de más de 150 reactivos "que deberé desarrollar en dos horas y media" y aunque reconoció que es tarea difícil, dijo que "las cosas sencillas no tiene caso hacerlas".

Con 17 años, América Esmeralda ayuda a su madre en el cuidado de sus hermanos menores, estudia y se prepara "porque en la vida todo se puede hacer, sólo se trata de voluntad", aseguró.

América Esmeralda Ocampo Delgado, digna representante de BC.

Flavio y su Política

Por Flavio

Pa' que la piensen El tipo aquel recibió una invitación para pasar el fin de semana en la casa que un amigo suyo tenía en la playa de moda. La fiesta del sábado en la noche se puso tan salvaje que el tipo se fue a su habitación. Poco después alguien toca la puerta. La abre el tipo y ahí estaba una muchacha. "Estoy aquí por la rifa" dice el tipo. "¿Ganaste?" pregunta él muy orgulloso. "No responderé. Perdí. Llega Pepito de la escuela. Le pregunta su papá. "¿Qué te enseñó la maestra?" "Nada responde muy molesto el precoz niño. Traía pantalones". El automóvil de aquel viajero sufrió una descompostura, y el hombre tuvo que pedir hospitalidad a un granjero, pues se había hecho ya de noche. Al terminar la cena el viajero salió a contemplar al cielo estrellado. En eso estaba cuando la hija del granjero se le unió, y luego un poco más, y más hasta que se le unió totalmente. Al día siguiente el granjero muy enojado, le reclama al tipo: "Lo vi haciendo el amor a mi hija en la oscuridad. ¿Porqué lo hizo?" "Señor responde con gran sinceridad el tipo. Yo mismo me hice esa pregunta cuando la vi en la luz". De fácil digestión Los canibales apresaron a un explorador chino y lo llevaban a su aldea para devorarlo. "Son sabrosos estos chinos dice uno de los canibales al otro. El problema es que te los comes y a las dos horas ya tienes hambre otra vez". Abusivo. La muchachita llega a su casa muy desaliñada, y su mamá le riñe: "¿Por qué demonios llegas con la ropa toda desajustada, y la pintura de los labios toda corrida?" "Fue el indecente de Alfredo, Mamá" "No permitas que te trate así. Acúsalo con el gerente" "El es el gerente, mamá". Canibales.... No tontos.. Unos cazadores iban con sus esposas atravesando la selva africana, cuando son atrapados por unos canibales. Para el desayuno del rey escocés una preciosa rubia, y de camino a la aldea se oye la siguiente pregunta: "Grán jefe: ¿Qué significa eso de que el desayuno se lo sirva en la cama?" Cuento viejo. Una joven de la "alta sociedad" hija de una culta dam, se embriagó en una fiesta de mucho postín, y al salir que le dan ganas de vomitar. Se dirigió al basurero, y por el gran esfuerzo que hizo cayó de cabeza y quedó dormida y clavada, mostrando el trasero. Al día siguiente al llegar al basurero dijo: "¡Malditos ricos! Como tiran cosas que sirven! Hay que ver qué estupendos desperdicios tienen por todos lados". El señor entra llama al borrachito del pueblo y lo parca.

CALFED Bay-Delta Program Public Notice

The CALFED Bay-Delta Program released a Draft Programmatic Environmental Impact Statement/Environmental Impact Report (Draft Programmatic EIS/EIR) on June 25, 1999, for public review and comment. The CALFED Bay-Delta Program is a cooperative effort by 15 state and federal agencies with regulatory and management responsibilities in the San Francisco Bay-Sacramento/San Joaquin River Bay-Delta to develop a long-term plan to restore ecosystem health and improve water management for beneficial uses of the Bay-Delta system. The CALFED Program includes a range of actions that may affect the San Francisco Bay-Sacramento/San Joaquin Bay-Delta, Suisun Marsh and Bay, Central Valley floor and Watersheds, and Central and Southern California water service areas.

Written comments are due by September 23, 1999.

Public comments can also be submitted orally at one of the 15 public hearings which will be held at various locations around the state. The Draft Programmatic EIS/EIR can be found and copies requested on the CALFED web site at: <http://calfed.ca.gov>.

The document is also available in hard copy or CD-ROM. For copies of the Draft Programmatic EIS/EIR and/or information on public hearings, please contact the CALFED Bay-Delta Program at 1-800-900-3587. Written comments on the Draft Programmatic EIS/EIR should be addressed to Rick Breitenbach, CALFED Bay-Delta Program, 1416 Ninth St., Suite 1155, Sacramento, CA 95814-5509.
